

SO SPREAD

My gaze is blurred

I can only see faults

Those committed by myself to myself for myself

Beside it's me

Living in finest dirt

A reflection, the refuse, cold debris that wound souls

Worried!

Worried, wrecked

My sight's confused

My eyes are veiled by mud

Resurrecting wild logic from the oddest world

Can point the blame

The offenders, high rates

Leaving creatures by ourselves, with ourselves, for ourselves.

Worried!

My gaze is blurred

I can only see faults

Those committed by myself to myself for myself

My sight's confused

My eyes are veiled in mud

Resurrecting wild logic from the oddest world

Worried!

Worried, wrecked

Some beliefs are useless

So spread! so spread!

So spread!... unwrap the blues!

Stop begging beliefs are high!

Stop bugging beliefs are high!

Stop weeping beliefs are high!

So spread! so spread!

So spread!... unwrap the blues!
